

Project Features List:

- Create account - Creating account for new users who want to use Donate Up
- Login - Existing users that are logging in.
- Website donation functionality - Ability to make donations from the website
- Chrome extension donation - Extension will automatically detect a purchase and prompt the user to donate the change from their purchase.
- My profile/setting page - Update information including bank info, name, address, ect...

USER STORIES:

- Create account - Creating account for new users who want to use Donate Up
 - Why: Users need to be able to create a new account so that they can save their settings and view their data.
 - Who: Jesse Andringa, Tim Ashour
 - When: march 15th.
- Login - Existing users that is logging in
 - Users should be able to log in with their desired username and password.
 - All the information is updated as well as all the transactions that were made previously
 - Once they are logged in, the amount they saved should be the first to pop to donate.
 - Who: Jesse Andringa, Mimi To, Tim Ashour
 - When : April 5th
- Website donation functionality - Ability to make donations from the website.
 - Why: create an idea and framework for how we want the chrome extension to work. This website should be able to work without complicated API's or even a database.
 - When: March(15) finish before we start the chrome extension.
 - Who: Ben Weiler, Nathan Jager, Jesse Andringa
- Chrome extension donation - Extension will automatically detect a purchase and prompt the user to donate the change from their purchase.
 - Why: To know when to show a popup for confirming donation
 - When: April 5th
 - Who: Ben Weiler
- Check and update user profile
 - The user should be able to look at the information that they gave Donate up and make changes to it.
 - This could be change to credit card info, street address, or just looking at how much they have donated over a certain period of time.
 - When: march 15th
 - Who: Tim Ashour
- What Donate Up does - Description for those who never heard about us.

- Donate up is a website/Chrome extension that allows users to donate a small percentage of change from a purchase. It will round the total of the users spending amount to the nearest dollar. That will then be donated to the charity of the users choice.

Project Plan KanBan Board

<https://colorado344773.monday.com/boards/1055015388/>

(use colorado email to access board)

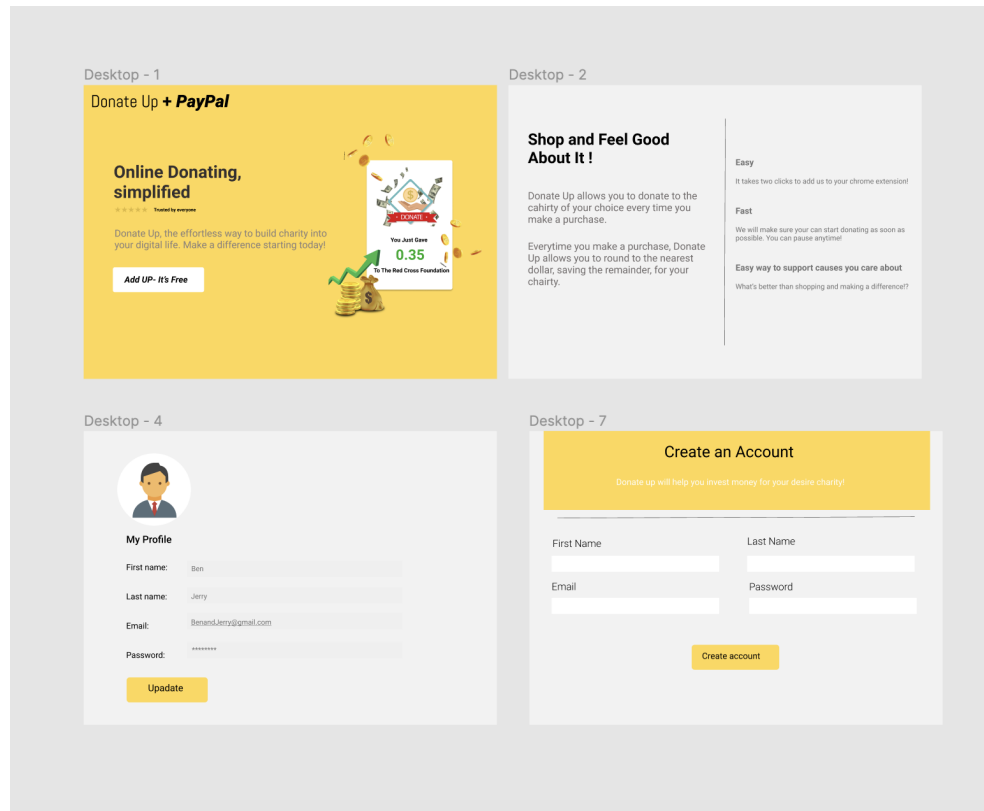

The link should open up to this website :)! We have the rest of the plan in here.

	Subite...	Person	Status	Date
Making Chrome extensions		NJ	Working on it	Mar 8
API		BW		Mar 8
VPS		TA		Mar 8
DMN		JA	Working on it	Mar 8
TLS		TA		Mar 8
Bank Accessibility				Mar 8
Design Integration		JA BW	Working on it	Mar 13
UI and Backend integrations		BW +2		Mar 13
+ Add				

Wireframes & Design:

<https://www.figma.com/file/Zr4Qt5KMvq02AmWGerNME3/Untitled?node-id=31%3A2&frame-preset-name=Desktop>

Figa should open to this website. If you press play, some of the buttons should word for this prototype.

Individual Contributions:

Eliza Mimi To	Lead of UI design: https://www.figma.com/file/Zr4Qt5KMvq02AmWGerNME3/Untitled?node-id=31%3A2&frame-preset-name=Desktop Feature, User story
Jesse Andringa	Helped with UI design, https://github.com/CSCI-3308-CU-Boulder/3308SP21_021_2/tree/main/Code/chrome_ext_frame , Helped with feature lists/user stories
Timothy Ashour	Helped with Gantt chart, Helped with feature lists/user stories
Nathan Jager	Helped with Gantt chart, tutorial links, Helped with feature lists/user stories
Jeremy Schlagel	Helped with UI design, Helped with

	feature lists/user stories, Finding charities.
Benjamin Weiler	Lead designer of KanBan Board and helped with feature list and user stories (Website donation functionality)
